MATHEMATICS

Maths Holidays Homework of Grade VI

➡ **Task for Roll Numbers 1 to 10.**

▶ ***Dress up in degrees***

i.e Fancy Dress like a PROTRACTOR

Instructions:

Do dress up like a mathematical protractor and depict few lines about it.

Prepare a small video of your depiction in your Mathematical attire and share it with your Maths Teacher by 25th June 2025.

➡ **Task for Roll Numbers 11 to 20.**

▶ ***Mindfulness is Soulful*** 🧘

Search for the best breathing pattern and Make a Report(In Maths Notebook) of its benefits.

***Do practice it during your vacations with your parents and make your small video depicting it along with explanation of the benefits experienced by you through this breathing exercise and share it with your Maths teacher on 21st June 2025 i.e International Yoga Day.**

➡ **Task for Roll Numbers 21 to 30.**

▶ ***An Angle's Tale***

Depict a Role play on story of an angle. Prepare it with your team in vacations and you will showcase it in your Maths lab period after vacations.

➡ **Task for Roll Numbers 31 and onwards**

▶ ***Model Making***

Prepare a Model on types of angles. You will show your Models on 14th of July to your Maths Teacher. A link given below is shared to give an idea.

<https://pin.it/6Jpg9kvIP>

Kindly note all the Assigned Activities are a part of Internal Assessment

Do Revise your covered topics with Revision Assignments in your vacations.

SCIENCE

Class 6 – Holiday Homework (Summer Break)

Dear Students,

Holidays are a time to relax and enjoy, but also a great opportunity to learn in fun and creative ways. Here is your holiday homework to keep you engaged and curious during the break.

1. Project Work: "Kabad Se Jugaad" (Best Out of Waste)

Objective: To promote creativity, environmental awareness, and reuse of waste materials.

- Instructions:
- Use waste materials like old newspapers, plastic bottles, bottle caps, cardboard, old CDs, fabric scraps, etc.
- Create a useful item or decorative craft. Examples: Pen stand, planter, bird feeder, wall hanging, lampshade, etc.
- Write 5–7 lines describing what materials you used and how your creation can be helpful.

Submission: Bring the item along with a short written description and 2–3 photographs of the making process.

2. Role of Creativity in Becoming a Scientist (Write-up)

Objective: To understand how imagination and creativity are essential in scientific discoveries.

- Instructions:
- Write an essay in your science notebook(100–150 words) on “How Creativity Can Help Me Become a Scientist.”
- Include your thoughts on:
 - • What kind of scientist you want to be.
 - • How thinking differently and creatively can solve problems.
 - • An example of a scientific invention that involved creativity.

Optional: Add a hand-drawn illustration or chart to support your ideas.

3. Science Activity: Preparing a First Aid Box

Objective: To learn about basic healthcare and the importance of first aid.

- Instructions:
- Prepare a small First Aid Box at home using a clean, empty box (a lunch box or shoe box can be used).
- Include basic items like:
 - • Band-aids
 - • Antiseptic cream
 - • Cotton
 - • Gauze
 - • Dettol or Savlon
 - • Scissors
 - • Pain relief balm
 - • Thermometer (optional)

Label each item and write a small note (5–6 lines) about the importance of keeping a first aid box at home.

Bonus Activities (Optional but Encouraged):

- Reading Challenge: Read at least one storybook and write its summary in 8–10 lines.
- Math Around Me: Find 5 objects at home and measure their length/width. Record them in a table.
- Nature Watch: Observe a plant or a bird for 3 days and write your observations.
 - • Revise the work done in the class.
 - • Activityno.2 is compulsory for all. Out of Activity 1 and 3 , perform any one of your choice.

Submission Date: First day after school reopens

Note to Parents: Please encourage your child to complete the work independently and creatively.

SOCIAL SCIENCE

MGN PUBLIC SCHOOL, ADARSH NAGAR, JALANDHAR
