

The background of the image is a vibrant, cartoon-style illustration of a beach scene. At the top left, a large, bright yellow sun with orange rays is partially obscured by a fluffy white cloud. The sky is a clear, light blue. In the center, the words "SUMMER VACATION" are written in large, bold, blue, rounded letters. Below this, a light blue oval contains the school's name and class information in red and black text. The bottom of the image shows a sandy beach with two striped lounge chairs and a small round table. Two palm trees with green fronds and brown trunks are positioned on either side of the beach. The ocean is a solid blue line in the background.

Safety Tips to Keep in Mind

***ALTHOUGH CYCLING KEEPS CHILDREN HEALTHY,
IT IS MANDATORY TO FOLLOW SAFETY GUIDELINES***

Following are some of the safety guidelines

- Ensure that your child uses cycling helmets for safety.
- Children can end up having a fall with scraped knees and bruises. Sometimes, it can be risky. However, this should not stop you from introducing your child to cycling.

These falls are learnings that make them extra cautious and force them into taking safety precautions.

- Familiarize your child with the parts of a bicycle, the various problems that they can run into while cycling and tips about how to handle themselves and the cycle, in case of an emergency.

You might fret sending your child out cycling, but remember the health benefits and the joy in your child's life. It's a pleasure to watch your child make a million memories as their bicycle bells clink endlessly

Environment Day Activities at Home for Students

June 5, 2025

- Turn off the electronic equipments like lights, TVs, etc. when you are not using it.
- If possible, avoid using lights during day time instead try to use natural energy resources.
- Use energy-efficient products to save energy.
- Make a habit of turning off the water taps while brushing your teeth and also after washing your hands.
- Reuse the items to minimize waste disposal.
- Recycle items such as paper, plastic, cardboard, etc.
- Prefer to use fans instead of using AC to reduce carbon emission.
- Sharing is caring! You can share those items that you are not going to use further.
